TEACHING PERFORMANCE COURSES

Weekend format for UK indoor venues:

These full day courses (with one or two day options) are a unique new product aimed at helping instructors to develop their own teaching performance. Your Parallel Dreams Coach will illustrate the use of different teaching tools & techniques and look at how to understand and deal with specific learner needs.

Each day will run from 9.30a.m. until 4p.m. with a couple of breaks for lunch and coffee. The programme will include practical on snow sessions combined with off snow reviews. You should aim to arrive at the centre at 9.00a.m. so you can pick up your lift pass, get changed & meet the Parallel Dreams Coaching Team. Tell the reception that you have booked through Parallel Dreams.

Who should attend these courses?

These courses are aimed at ski instructors who wish to develop their teaching ability so that they can deliver a world class service to their clients.

They are also ideal for instructors who are working their way through their instructor exams so that they can better understand how teaching works and how to apply theory to practical situations.
